

The role of regulatory legal acts aimed which preventing corruption

The regulatory and legal acts of the Government of the Republic of Uzbekistan for combating corruption, aimed at developing competitiveness, transparency and openness, as well as eliminating various bureaucratic barriers, create more favorable conditions for carrying out entrepreneurial activities in our country.

This document states that the Resolution of the Cabinet of Ministers of the Republic of Uzbekistan dated October 30, 2020 No. 680 "On additional measures to improve the management system of telecommunication networks of the Republic of Uzbekistan" government unitary enterprise "Republican Telecommunications Management Center of Uzbekistan" GUE "RTMCUz" is appointed as the working body for the management of telecommunication networks and resources and is tasked with allocating short special numbers for information services.

In order to ensure transparency in the allocation of special short numbers, relevant regulatory legal documents have been approved for business entities and legal entities in the area of effective communication with population.

In order to create openness, transparency, healthy competition and equal conditions for economic entities in the allocation of special short numbers, which are a unique and limited resource, government unitary enterprise "RTMCUz" has introduced the practice of selling the placement of special short numbers through the Internet auction of the "The Uzbek Commodity Exchange".

In accordance with the Resolutions of the Cabinet of Ministers, a number of conveniences has been created for legal entities (entrepreneurial entities):

At the first, are created openness, transparency, healthy competition and equal conditions when allocating special short numbers for business entities;

Secondly, the current legislation defines the legal basis for interaction between interested bodies and applicants when allocating short special numbers.

The Compliance Control Department of the government unitary enterprise «RTMCUz» carries out systematic work to identify possible cases of corruption in the provision of special short numbers.

Based on the results of the monitoring, no cases of corruption in this area wasn't identified.
